To whom it may concern

Herewith we confirm, that we bought glass insulators **U70BL, U120B, U160BS** and **U210B** produced by Messrs. **LLC UMEK Group**, Yuzhnouralsk, Russia, for several 400 kV and 110 kV projects.

Since the commissioning dates (2014, 2015) the above goods have shown good performance, and neither ourselves nor the End customers have had any complaints about them.

Yours Very Truly,

Francesco Stevanin
Manager, Engineering & Procurement
Tecnolines S.r.l. - Italy
